

Mini Gripper

SKU: 86508

Weight: 40.00 Gram

What is Mini Gripper?

Mini Gripper is a small-volume, simple gripper perfect for "getting a grip" in lightweight projects. Made of light-weight acrylic material, this gripper also equipped with a 9g servo which ensures fast gripping speed.

Features

- ? Fast gripping speed;
- ? Made of transparent acrylic material, small-volume and lightweight;
- ? 9g Servo will not burn out when stalled, ensuring long-time use of the gripper itself;
- ? M4 mounting whole at the end of the gripper for easy assembling;
- ? Perfect for lightweight projects.

What Can You Grip With This Gripper?

This mini gripper is suggested to use in lightweight projects. It is perfect to grab and carry small items with the diameter between 22mm and 60mm, and with the weight under 60 grams, for instance, a ping pong ball, a plastic bottle, a paper cup etc.

Note

Please make sure you grip an item by using the phalanx of the gripper instead of the fingertip since using the phalanx can grip items firmly.
