on page J.

MEET OR EXCEED ENVIRONMENTAL AND OPERATIONAL REQUIREMENTS
OF MIL-L-6723 AND MIL-L-3661B

Assemblies with Mechanical Dimmer Caps provide adjustable intensity of light emission: Rotatable shutters decrease the size of 3 triangular openings from maximum light to complete blackout. In "complete blackout" no light is emitted. In "semi-blackout," the shutters have a small permanent central opening which permits a spot of light to reach the lens. This prevents missing a danger signal when the shutters are inadvertently closed.

MATERIALS AND FINISHES

- Mounting Bushing: Brass, black nickel finish.
- Mounting Nut: Brass, white nickel finish.
- Internal-tooth Lockwasher: Phosphor bronze, white nickel finish.
- Terminals: Brass, hot tinned with elongated slot.
