### Note

- The MT5A series required a minimum 10% loading on the output to maintain specified regulation. Operation under no-load condition will not damage these devices, however they may not meet all listed specification.
- BELLCORE TR-NWT-000332. Case 1 :  
50% Stress, Temperature at 40°C. (Ground fixed and controlled environment)
- M1 version is more efficient, therefore, it can be operated in a more extensive temperature range than standard and M2 version
- Maximum value at nominal input voltage and full load of standard type.
- Typical value at nominal input voltage and full load
- There is no pin at PIN10 & PIN15 for MT5A-W series
